**Mission:** is to strengthen families and bring together communities through the support, empowerment and advocacy of mothers doing what is right and natural for their children; as well as increasing awareness and providing education to the outside community.

**Vision:** To improve the treatment of Breastfeeding Mothers by increasing the number of mothers who breastfeed & sharing the many benefits that breast milk has.

**Vision for the March:** Fighting for Federal laws protecting a mother's right to breastfeed her baby any place where she and her baby are legally permitted, and mandating maternity leave providing every baby with the most basic of human rights access to their mother and her milk.

### ***Make Donations to Breastfeeding Mothers Unite***
